

Predator: Victory Through Innovation

Predator's high-performance cues and shafts have been engineered with one goal in mind: to provide the best performing low-deflection shafts, playing cues and break cues in the world.

For over 20 years, Predator has been a leader in billiards technology with a commitment to innovation that speaks for itself.

3rd Generation 314 Features

- **V-Tek** front-end construction and materials for increased strength and stiffness with less front-end mass.
- **iMatch** 10-piece North American Hard Maple splice construction for increased radial and hit consistencies.
- **Premium Predator Victory** eight-layer tip for better sighting and shaping.
