If you're looking to invigorate your game room...creating memories, laughter and happiness when you entertain...The Original Skeech is the answer!!

The Original Skeech was created by Josh & Zach from a game their family started playing on the beach in South Carolina. The beach game is played by rolling bocce balls on the sand between two sets of holes to score points. This game is like playing Skee-Ball on the beach...hence, the name Skeech!

They brought the beach game inside to a 8' x 20" table top playing surface. This fun, exciting game can be played anytime, anywhere. The Original Skeech is a game like no other and now you don't have to be on a beach to enjoy it!
