

Cheyenne Barnwood

7' Starting at \$3,750

8' Starting at \$4,050

The Cheyenne Barnwood pool table is a rough sawn pine pool table that will go with any rustic, lodge, or western decor. This rustic pool table is made from rough sawn timbers to replicate the barn wood look. The leg system is designed in a mission style using six-inch and four-inch rough sawn timbers. The body wrap, side skirts, and top rails are all made of one-inch and two-inch rough sawn pine boards. The spotting points, or sites, are black one-inch square hand forged iron clevis doornails which give this table a western or ranch feel. The same iron doornails are used to accent the side rail skirt. The Cheyenne barn wood pool table is finished with a catalyzed lacquer to protect it for years to come.

Meets all Billiard Congress of America specifications

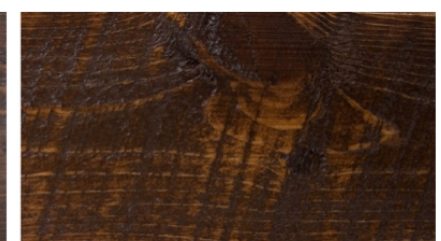

- 14 ply main beams and 7 ply side beams make up the inner structure of the body
- Assembled unibody which has the top machined to .005"
- Top plate on the unibody for slate backing and attaching cloth
