

Log Poker Table
Log Poker Chair Set of 4

\$1,600
\$1,140

Clear Finish

Honey Pine Finish

This is the ultimate log poker table because it's beautifully made to be multi-functional. The rustic poker table top can be used as the card table, or it can be used as a dining table. The warmth of the Ponderosa pine is carried throughout the table in the cup holders and chip trays. This log poker table has eight cup holders and chip trays incorporated into its octagon shape. The outside edge is hand hewn using a drawknife to create the rustic look. When you are not using the rustic poker table, just use the reversible top to convert it into a rustic dining room table. You can choose from multiple cloth options for the poker side of the table.
